

Description

The Bobcat® wood chipper attachment grinds branches, trees and limbs, reducing branch volume 10 to 1. Unlike a pull-type chipper, the wood chipper attachment can easily be placed into backyards and remote areas with the manoeuvrability of a Bobcat® loader. Hydraulic power feed is included as standard equipment. It allows the feed roller to move branches into the wood chipper at a consistent speed so the operator can work safely and efficiently.

Dimensions

Description	Item number	Overall length (A) (mm)	Overall width (B) (mm)	Overall height (C) (mm)
Chipper 5A Non-CE	6719129	-	-	-
Chipper 8B	7117662	2594.0	1549.0	2369.0

Weights

Description	Item number	Operating weight (kg)	Shipping weight (kg)
Chipper 5A Non-CE	6719129	520.0	520.0
Chipper 8B	7117662	753.0	753.0

Characteristics and performance

Description	Item number	Feeder opening (mm)	Continuous chipping size (mm)	Feed table height (mm)	Blades	Flow range (l/min) (L/min)	Discharge chute
Chipper 5A Non-CE	6719129	125.0	75.0	600.0	4 reversible stool steel blades	64.0-98.0	Rotates 360°
Chipper 8B	7117662	235.0	127.0	645.0	4 reversible tool steel blades	98.0-151.0	Rotates 360°

Main features

- The Bobcat® Wood Chipper attachment is ideal for grinding branches, trees and limbs, reducing branch volume from 10 to 1
- You can grind branches and trees up to 13 cm in diameter
- The discharge chute can be rotated 360°, giving you maximum flexibility of use
- Operate the wood chipper from the cabin or using the Bobcat® Remote Attachment Control (RAC) system. This allows the operator to start or stop the loader's engine and chipper rotation when standing beside the attachment
- The unit comes with an automatic hydraulic feed, with speed control and a load sensing system for optimum performance and constant flow
- Large diameter, high-torque feed roller for increased efficiency and productivity
- Variable speed feed drive for adjusting the feed rate with a reversible option in case of plugging
- For more work flexibility, dual mounting locations allow material to be fed from the front or right side of the loader

Applications

- Agriculture
- Forestry
- Landscaping
- Road work, Recycling and Cleaning

Loader Compatibility
